

4K UHD WIFI 2 CHANNEL DASHCAM

4K UHD — SONY IMAGE SENSOR

The AL3RTcam 4K utilises quality Sony Starvis IMX335 image sensor

Front camera: 4k 3840 x 2160p

Rear camera: FHD 1920 x 1080p (optional)

PARKING SURVEILLANCE

The smart voltage protection hardwire kit enables the DashCam to continue recording even when the vehicle is turned off providing peace of mind when leaving your vehicle.

INCIDENT RECORDING

A built in G-sensor will enable the dash camera to detect an incident and lock the footage from the current video loop so that it cannot be written over.

EASY ACCESS

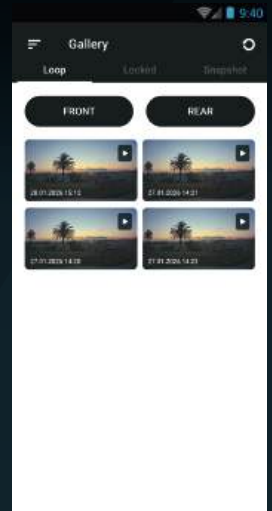

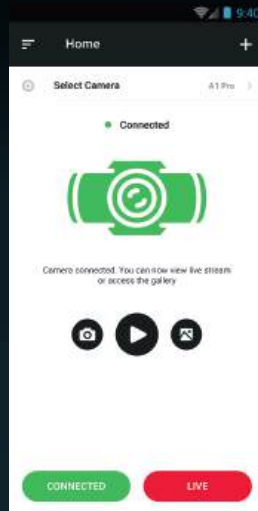

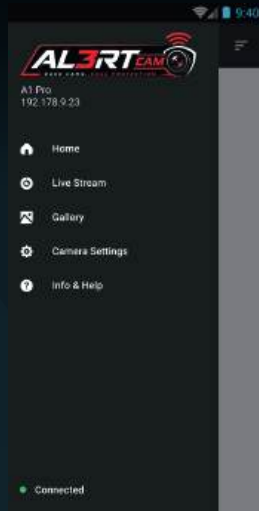

Connect directly to the camera via the wifi and access footage through the Al3rt Cam app. View, download and share footage directly from your smartphone.

Parking surveillance requires the DashCam to be handwired OR plugged into a 12V socket with permanent power. The smart voltage protection hardwire kit will shut the camera off if the battery voltage drops below the pre-set voltage to protect the vehicle's battery. The length of parking surveillance will be determined by the condition of the vehicle's battery. Warranty terms conditions & exclusions apply
